They would then carry it out at cost price.

In answer to Mayor Henry, Mr. Hunter said that the city would not be based on the original price, as prices had gone up since then.

Mr. Hunter said that he thought the company were entitled to be paid the price they had paid for the material, but that they had not done so.

He said that the city would not carry out the work when it was done, but that they would go on with their suit against the city.

He answered a general question Mr. Hunter said that the company estimated the cost of the work at \$117,990.

Mr. Hunter said that the city would not pay the cost of the work, but that they would pay the cost of the material.

Mr. Hunter asked what they would take for a settlement, with nothing in view, said that they would not settle for less than \$25,000.

Eventually Mr. Hunter was given to understand that council would not entertain any idea of paying the amount, but he was asked to send in a formal statement of claim and to embody the proposals of the company, and council would then give their decision, together with any offer or compromise to the company.

#### Man to Dethrone World's Champion Must be Combination Boxer and Fighter

(By William H. Hooper.)

It will take more than a boxer to defeat Freddie Welsh, the world's champion lightweight. That was fully demonstrated at Washington today, when he took a beating from Leonard, one of the fastest knockouts in the world. Leonard is a wonderfully clever boxer for a comparative novice, and he can hit hard, too, with either hand.

There was nothing left for organized ball to do but make the players' value, with the result that the majority of the clubs lost money in 1915 and 1916.
